

We have surveyed the community to access the sidewalk clearing that is now becoming a concern for many whose children walk to school.

We have two extremes, some areas are done very well then there are areas that have not been touched.

The city would like for residents and businesses who live (particularly) on major routes through town such as Division Street, Walker Road, Saulsbury Road and Webb's Lane to take some time and work on the sidewalks.

Starting next week the Inspections Department will be issuing fines throughout the city to people who have not cleared their sidewalks, it is now a safety hazard for children walking to and from school.

We completely understand the magnitude of snow that we are dealing with and the amount of work it will take to get accomplished but at the same time it has become a safety concern.

We (the City) are still working on some areas that we are responsible for, but we are hoping that with continued efforts, and the weather cooperating this week, it will help us get through it much easier.

We really want to give everyone a fair chance to get this done, but eventually we will have to issue fines if it is not done.

The weather looks as though it will cooperate the rest of this week with temperatures into the 40's which will aid in the removal efforts.
