Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:

145 Ann Ave, Dover, DE 19904

Central Delaware Habitat for Humanity's (CDHFH) project, Affordable Homeownership

Development in Dover, is to construct 8 new homes in downtown Dover and surrounding area within City of Dover limits. Central Delaware Habitat has been primarily building in this area since 2015 as part of a strategic revitalization effort in partnership with other non-profit and for-profit organizations under the Restoring Central Dover: Our Vision for Vitality Plan 2020-2025. This environmental review is for 1 of the 8 properties, 145 N Ann Ave, Dover, DE. This property is currently owned by Central Delaware Habitat for Humanity and is zoned for residential construction. The homebuyer has already been approved. The home will be sold to a homebuyer who is 60% or below area median income with a 0% interest, 30 year mortgage, which is Habitat's model. The home will be sold at fair market value unless total development costs or affordability for the homebuyer is lower. The estimated mortgage will be \$230,000 making the home affordable for low-income residents. CDHFH has built and sold 52 homes in the City of Dover out of the total 79 homes that have been built by CHDHF since it began in 1990. CDHFH utilizes volunteers throughout the entire construction process, which reduces construction costs; however, some sub-contractors are used and managed by CDHFH staff. Central Delaware Habitat has two full-time construction staff that oversee the construction of the homes, coordinate volunteers on-site, coordinate material delivery, and schedule and coordinate sub-contractors and a Director of Homeowner Services that qualifies and works directly with the homebuyers throughout the entire process. There will not be any subrecipient for this project. The home will be single family, two story home with 4 bedrooms at about 1,400 square feet. The home will be consistent with the local architecture and will meet or exceed local building code. The home will be built on a slab, so there will be minimal disturbance to the ground.

Level of Environmental Review Determination: Categorically Excluded per 24 CFR 58.35(a), and subject to laws and authorities at 58.5: 58.35(a)(3)(i)

### **Determination:**

Deter	mination.
	This categorically excluded activity/project converts to <b>EXEMPT</b> per Section 58.34(a)(12), because it does not require any mitigation for compliance with any listed statutes or authorities, nor requires any formal permit or license; <b>Funds may be committed and drawn down after certification of this part</b> for this (now) EXEMPT project; OR
<b>✓</b>	This categorically excluded activity/project cannot convert to Exempt status because one or more statutes or authorities listed at Section 58.5 requires formal consultation or mitigation. Complete consultation/mitigation protocol requirements, <b>publish NOI/RROF and obtain "Authority to Use Grant Funds"</b> (HUD 7015.16) per Section 58.70 and 58.71 before committing or drawing down any funds; OR

This project is not categorically excluded OR, if originally categorically excluded, is now subject to a full Environmental Assessment according to Part 58 Subpart E due to extraordinary circumstances (Section 58.35(c)).

The Federal Emergency Management Agency (FEMA) designates floodplains. The <u>FEMA Map Service Center</u> provides this information in the form of FEMA Flood Insurance Rate Maps (FIRMs). For projects in areas not mapped by FEMA, use the best available information to determine floodplain information. Include documentation, including a discussion of why this is the best available information for the site. Provide FEMA/FIRM floodplain zone designation, panel number, and date within your documentation.

Is the structure, part of the structure, or insurable property located in a FEMA-designated Special Flood Hazard Area?

✓ No

Based on the response, the review is in compliance with this section.

Yes

4. While flood insurance is not mandatory for this project, HUD strongly recommends that all insurable structures maintain flood insurance under the National Flood Insurance Program (NFIP). Will flood insurance be required as a mitigation measure or condition?
