145 N. Ann Ave

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 3/10/2023 at 2:14 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

Dear Jocelyn:

Thank you for contacting the Species Conservation and Research Program (SCRIP) about information on rare, threatened and endangered species, unique natural communities, and other significant natural resources as they relate to the above referenced project.

State Natural Heritage Site

A review of our database indicates that there are currently no records of state-rare or federally listed plants, animals or natural communities at this project site. As a result, at present, this project does not lie within a State Natural Heritage Site, nor does it lie within a Delaware National Estuarine Research Reserve which are two criteria used to identify "Designated Critical Resource Waters" in the Army Corps of Engineers (ACOE) Nationwide Permit General Condition No. 22. A copy of this letter shall be included in any permit application or pre-construction notification submitted to the Army Corps of Engineers for activities on this property.

Fisheries

After reviewing the project description, it does not appear that any waterways will be impacted; therefore, there are no fisheries concerns at present.

We are continually updating our records on Delaware's rare, threatened and endangered species, unique natural communities and other significant natural resources. If the start of the project is delayed more than a year past the date of this letter, please contact us again for the latest information.

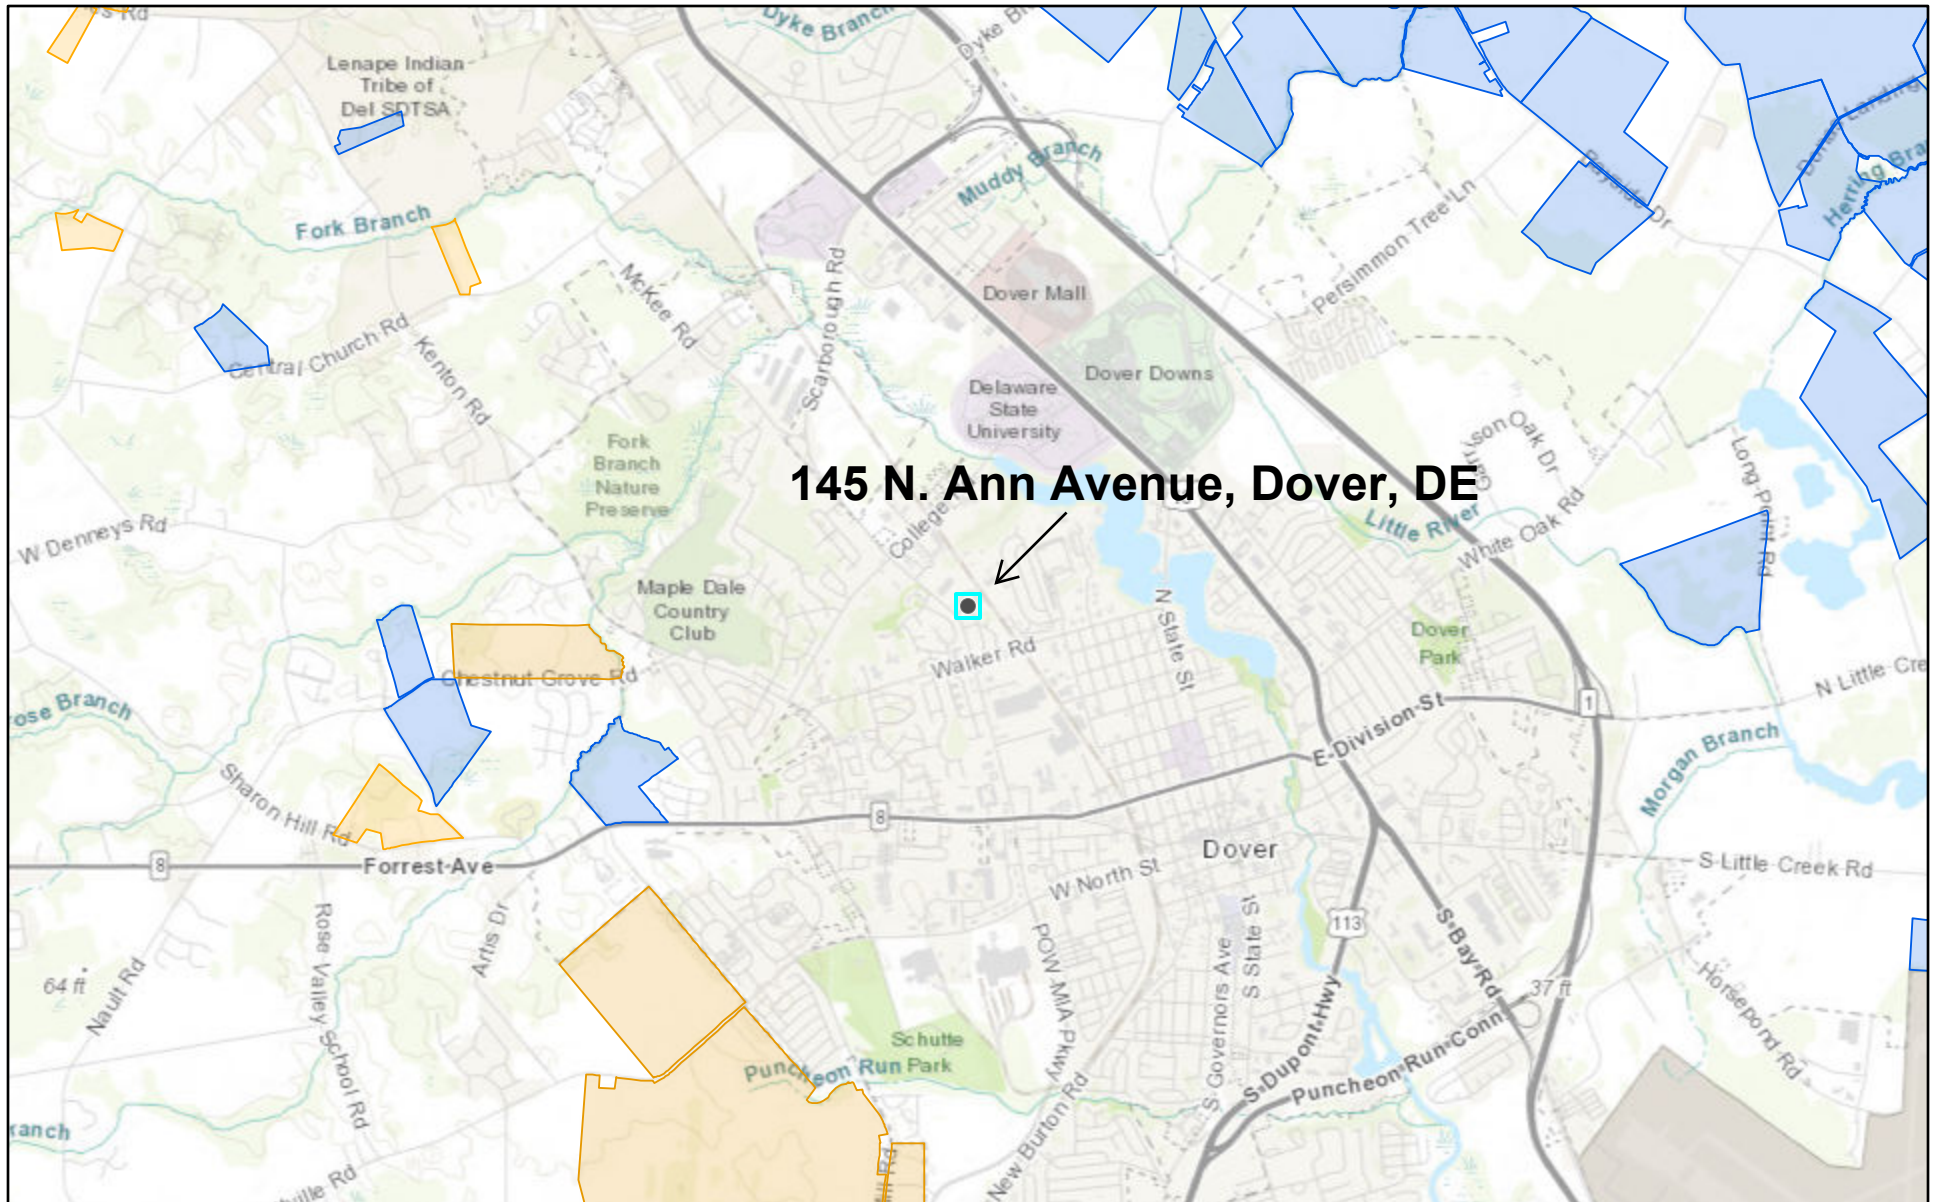

Please feel free to contact me with any questions or if you require additional information.

Sincerely,

A handwritten signature in black ink that reads "Danielle Ellis". The signature is written in a cursive, flowing style with a large initial "D".

Sole Source Aquifers Map - 145 N. Ann Ave, Dover

6/15/2023, 1:51:42 PM

 Sole_Source_Aquifers

1:1,155,581

A number line with two scales. The top scale is labeled in miles (mi) with major tick marks at 0, 10, 20, and 40. The bottom scale is labeled in kilometers (km) with major tick marks at 0, 15, 30, and 60. There are also minor tick marks between the major ones. The alignment shows that 10 miles is approximately 16 kilometers, 20 miles is approximately 32 kilometers, and 40 miles is approximately 64 kilometers.
