THE CUSTOMER

“Customers are not outsiders to our business, they are part of our business. They are not an interruption of our work, they are the purpose of it. We are not doing them a favor by serving them, they are doing us a favor by giving us the opportunity to do so.

Customers are not cold statistics, they are flesh and blood human beings, with feelings and emotions like our own; and with biases and prejudices. They are the most important visitor ever in our office; whether they come in person, by mail, or over the phone.”
