# Residential and Business Parking Permits

Parking permits are issued in accordance with the procedures established in [Dover Code of Ordinances, Sec. 106-135](#) . The permits expire annually on July 15th. The Special Enforcement Unit of the Police Department is responsible for assigning permit colors to the specific areas each year.

## Residential Parking

- A resident of a designated residential parking area may be issued no more than (3) parking stickers (**one per vehicle**)

## Business Parking

- Business employees in designated areas may receive a residential parking permit. This sticker exempts the vehicle from the time-limit parking restrictions only in the designated area.
- A business may only be issued **(1) sticker per business address** .
  - The State of Delaware is considered one business, regardless of how many different offices are located in the building.
  - A building with several 'suites' housing different businesses is entitled to one sticker per 'suite'.
  - Local, county, and state agencies as well as courts are each considered one business.

## Renewal / Changes

When a resident has a change of address, they are required to make a new application for a permit within two weeks. If a resident is at the 3-sticker maximum and wishes to obtain a permit for a newly purchased vehicle, they must provide:

- A copy of the 'bill of sale' showing trade-in of the previously-issued vehicle **or**
- Provide the (peeled) sticker
