**QUESTIONS?**  
PLEASE CALL 302-736-7025

In accordance with Delaware's Universal Recycling Law, the City of Dover provides recycling collection service as part of our trash collection service. Recycling helps to conserve natural resources, saves landfill space and supports job creation. Not everything with a recycling symbol is accepted in Delaware's single stream recycling program, however. There has been an increase in the amount of unacceptable items being placed in recycling containers which has a negative impact and can result in fines to the City for contaminated loads. In order to avoid this negative impact, it is important that we work together to only place acceptable materials in our recycling containers.

## ACCEPTABLE (EXAMPLES)

Paper - magazines, junk mail, office paper, newspaper, paperback books, notebook paper
