## Upcoming Events

*The City of Dover Department of Public Works will be conducting two (2) separate operational activities this fall. The following provides a review of each activity:*

### **WATER DISTRIBUTION SYSTEM FLUSHING**

The City of Dover Department of Public Works will be flushing various sections of the City's water distribution system in an effort to alleviate concerns regarding brown water. Staff intends to flush all sectors of the distribution system as long as time and weather conditions permit. Flushing will occur continuously each night from 9:00 p.m. until 6:00 a.m., starting on Sunday evening and ending on Friday morning. (In the event of adverse weather conditions, the flushing operations may be postponed by one week.) A fifteen (15) night flushing schedule, from Sunday, October 6, 2019 to Friday, October 25, 2019, will be conducted as follows:

(Week 1) October 6, 2019 to October 11, 2019. (Day 1) Long Point Road, N. Little Creek Road, S. Little Creek Road, Horsepond Road and Acorn Lane areas. (Day 2) White Oak Road, Towne Point and Edgehill areas, Stoney Creek, Schoolview. (Day 3) U.S. 113 corridor, the U.S. 13 corridor from Public Safety Boulevard to Lookerman Street and the Bayard Avenue area. (Day 4) U.S. 13 corridor from Lookerman Street to Leipsic Road and the Persimmon Tree Lane area. (Day 5) U.S. 13 corridor from Leipsic Road to Scarborough Road and the DTCC campus area.

(Week 2) October 13, 2019 to October 18, 2019. (Day 6) Western U.S. 13 corridor from North State Street to Lake Club Drive, U.S. 13 corridor south from Public Safety Boulevard to State Street Extended and the State Street Extended service area. (Day 7) Rodney Village, Webbs Lane to Wyoming Avenue and New Burton Road to South Governors Avenue. (Day 8) Wyoming Avenue to Water Street and New Burton Road to U.S. 13 as well as the Legislative Mall area. (Day 9) Water Street to Division Street from West Street to State Street as well as Pear Street and Walker Road. (Day 10) Division Street to Walker Road from Pear Street to State Street as well as areas on the east side of State Street and the north side of Walker Road.

(Week 3) October 20, 2019 to October 25, 2019. (Day 11) North Street to Route 8 from West Street to Mifflin Road. (Day 12) Farmview, Hazletville Road, Wyoming Mill Road and western Route 8 areas. (Day 13) Saulsbury Road to Dover-Kenton Road from Route 8 to Walker Road. (Day 14) McKee Road corridor from Walker Road to Denny's Road, College Road corridor from Dover-Kenton Road to DSU. (Day 15) Dover-Kenton Road corridor from College Road to Denney's Road and Denney's Road corridor from Dover-Kenton Road to McKee Road.

The Department of Public Works anticipates increased amounts of brown water within the system until the flushing operation is complete. Any customers who experience discolored water should run cold water to clear their service lines. It is recommended that one faucet be utilized to clear service lines, preferably an outside faucet. Customers are requested to refrain from washing laundry during the week the operation is in your neighborhood. Residents are encouraged to not park across from, or within fifteen (15) feet of, fire hydrants during the flushing period to ensure that all lines can be flushed. We apologize for any inconvenience the flushing operations may cause. If necessary, additional days may be added to the flushing schedule without additional public notice.

All questions regarding this issue should be directed to the City of Dover Department of Public Works at (302) 736-7025. During non-business hours, please call (302) 736-7060 24 hours, 7 days a week or via email at [waterquality@dover.de.us](mailto:waterquality@dover.de.us).

## Upcoming Events

### Fall 2019 Leaf Collection

From October 14, 2019 – January 10, 2020 the Department of Public Works will be collecting leaf piles. LEAVES MAY BE PLACED IN THE CITY STREET FOR COLLECTION during this time. After January 10, 2020, regular yard waste collection rules apply: place loose leaves (no bagged leaves) in a privately owned 35 gallon or less plastic container for pickup on your regular trash cycle.

- Leaf collection will follow the day of normal sanitation collection.
- Leaf collection is for City of Dover residents only.

#### What to Do

- Keep piles one foot (1') in front of your curb, away from vehicles and catch basins.
- Put out leaf piles one day prior to your designated pickup day only.
- Keep pile no larger than 3 feet wide by 3 feet tall in size.

#### What Not to Do

- Do not bag or tarp piles as they cannot be collected.
- Do not place limbs, sod, concrete, trash or other miscellaneous objects in leaf pile as they cannot be collected with leaf material. These materials can damage the collector trucks and may result in a delay of completing the route.
