

WATER TREATMENT PLANT PROJECT

INFRASTRUCTURE TESTING

Dear Valued City of Dover Residents,

The City of Dover Water Treatment Plant requires the use of water from the City of Dover water distribution system to flush new water treatment infrastructure. This activity is anticipated to occur **multiple times between March 5, 2020 and April 2, 2020**. This could cause some discoloration in your water, with the anticipated effected area to be EAST of Route 1. If you experience discoloration in your water – turning on an outside spigot until the water runs clear is ideal – or turn on the cold water faucet in your house until the water runs clear.

We apologize for any inconvenience this may cause.

Questions? Call 736-7025 or e-mail at pw@dover.de.us.

Sincerely,

Kate L. Mills, P.E.
